Maitri Breathwork™ developers, Jyoti and Russell Park, will join with Darlene Hunter and other certified Maitri Facilitators and assistants to offer a Global Breathwork Fundraising event. In different locations around the world, facilitators and assistants hold a day of breathwork, giving their time, love and energy to support your healing. The breathwork fee will be donated to the Center for Sacred Studies.

Maitri Breathwork™ is a way that individuals can access non-ordinary states of consciousness through their own breath to integrate healing into daily life. The process used in Maitri Breathwork™ is a combination of deep breathing practices, evocative music and healing touch which calls forth images and messages held in the body and submerged in the unconscious. Through these revelations a profound process of personal transformation can begin.

In order to hold your space, you will need to place a Non-Refundable \$100 deposit!
