Areas of collective inquiry include:

How do we break down imposed boundaries between ‘self’ and ‘other’? What does it mean to be an ally? What does forgiveness in action look like? What does it mean to practice being humble? What does it feel like to remember our cosmic identity? What does it mean to be on an ascension path? What does it look like to dismantle patriarchy within ourselves? What inner and outer actions must we take to end the wheel of karma? How do we connect to grief in a way that facilitates healing? How are grief and ecstasy connected and how do we actively engage in them?
